

The following is a list of the most commonly prescribed drugs. It represents an abbreviated version of the drug list (formulary) that is at the core of your prescription plan. This list is not all-inclusive and does not guarantee coverage. In addition to using this list, you are encouraged to ask your doctor to prescribe generic drugs whenever appropriate.

PLEASE NOTE: Brand-name drugs may move to non-formulary status if a generic version becomes available during the year. Not all drugs listed are covered by all prescription plans; check your benefit materials for the specific drugs covered and the copayments for your prescription plan. For specific questions about your coverage, please call the phone number printed on your member ID card.

This document contains a list of medications that are excluded (not covered) on the Advantage Formulary. Here are some important items to note. A) This is not a complete list of medications excluded under your pharmacy benefit plan. B) Some drugs or drug categories listed may not be covered by your specific pharmacy benefit plan. C) Some drugs may have certain restrictions (ex. prior authorization requirements, quantity limits) or special copays. D) In some cases, MaxorPlus may offer brand drugs at the generic copay, but exclude the equivalent generic products. The drugs on the list may change over time due to changes in drug pricing. For drugs in the program, members will always have access to either the brand or generic equivalent at a generic copay. E) Additional alternatives other than what is included in the table may be available. For specific questions about coverage or copay information, please visit www.maxorplus.com and log in or call **1-800-687-0707**.
